

# Cutler Bay Hurricane Information

*The following information was updated in August, 2019, however, the information listed here may change without notice. We are providing this information as a service to the community and are not responsible for the correctness or completeness of this information. We recommend that you use this information as a starting point to making your disaster plans. Because your electricity may be out during a storm, please print any information, maps, etc. that will be useful before, during and after a storm (such as stores and gas stations with generators) and include them with your important papers.*

## Watches and Warning Terminology

- Tropical Storm Watch – Tropical storm conditions are possible within the next 48 hours
- Tropical Storm Warning – Tropical storm conditions are expected within the next 36 hours
- Hurricane Watch – Hurricane conditions are possible within the next 48 hours
- Hurricane Warning – Hurricane conditions are expected within 36 hours
- Evacuation Order – An imminent threat to life and property exists. You MUST relocate inland to non-evacuation areas.

## Hurricane Categories

- 1 – Winds 74 -95 mph (Designation H for Hurricane)
- 2 – Winds 96 – 110mph (Designation H for Hurricane)
- 3 - Winds 111 – 129 mph (Designation M for Major Hurricane)
- 4 - Winds 130 – 156 mph (Designation M for Major Hurricane)
- 5 – Winds 157 or higher (Designation M for Major Hurricane)

For description of the expected level of damage at the different category, including a video animation visit: <http://www.nhc.noaa.gov/aboutsshws.php>

## Emergency Evacuation Assistance Program

Miami-Dade County provides assistance to residents who may be unable to evacuate on their own due to disability or other issues. Those requiring assistance are urged to register immediately. To register visit: <http://www.miamidade.gov/fire/eeap.asp>

## Emergency Evacuation Bus Pick- Up Sites

Miami-Dade transit will activate specific emergency evacuation pick-up sites by zones. Residents living in Cutler Bay are in either Zone “A” (Red) or Zone “B” (Orange). Palmetto Bay includes Zones “A” “B” and “C” (Yellow). For information about which zones have been activated, listen to local media or phone 311. Find out your storm surge zone at: <https://bit.ly/2PgbYne>

### **Zone “A” Pick- Up Sites (Cutler Bay and Palmetto Bay listings only)**

- Cove Apartments 21121- 21133, SW 85<sup>th</sup> Ave.
- East Ridge Retirement Center SW 87<sup>th</sup> Ave and SW 193 Terrace
- Westminster School 6855 SW 152nd Street (Palmetto Bay)

### **Zone “B” Pick- Up Sites (Cutler Bay and Palmetto Bay listings only)**

- Cutler Ridge Park 10100 SW. 200<sup>th</sup> Street
- Franjo Park 20175 Franjo Road
- Southland Mall (South Side) 10850 SW. 211<sup>th</sup> Street

**Zone “C” Pick- Up Sites (Palmetto Bay listings only)**

- Christ Fellowship Church 8900 SW 168<sup>th</sup> Street. (Palmetto Bay)

Additional bus pick-up locations can be found at: <https://www.miamidade.gov/fire/library/bus-pickup-sites.pdf>

**Shelter Locations in South Miami-Dade**

**Before you evacuate, check to see which shelter, if any, are open. Listen to local media, dial 311 or visit: <https://bit.ly/2CvDLP3>**

- Robert Morgan Senior 18180 SW 122nd Ave. ([map](#))
- Terra Environmental Senior 11005 SW 84<sup>th</sup> Street ([map](#))
- Felix Varela Senior 15255 SW 96<sup>th</sup> St. ([map](#))
- Jorge Mas Canosa Middle 15735 SW 144 St. ([map](#))
- South Miami Senior 6856 SW 53<sup>rd</sup> St ([map](#))

For Additional evacuation centers visit: <http://www.miamidade.gov/fire/library/hurricane/hurricane-evacuation-centers.pdf>

**WHAT YOU SHOULD BRING TO AN EVACUATION CENTER**

- Bedding
- Infant and child care items such as formula, diapers, toys, etc.
- Cash
- Personal hygiene items
- Comfort materials such as books, magazines, etc.
- Prescription and over-the-counter medications
- Drinking water
- Snacks
- Extra clothing
- Special items for elderly or disabled family members

It is strongly recommended to bring portable electronic devices — such as phones, tablets and battery packs — fully charged as there are limited outlets at evacuation centers.

**Pet Friendly Shelters and Hotels**

- To find a Pet-Friendly Evacuation Center call 311. Current pet friendly centers include E. Darwin Fuch Pavilion – 10901 SW 24<sup>th</sup> Street. Dr. Michael M. Krop Senior High, 1410 County Line Road. Please confirm the status of any shelter before you evacuate by calling 311.
- For a list of Pet friendly hotels, visit: [petswelcome.com](http://petswelcome.com)

**Prepare Now**

- Review your insurance policies to ensure that you are adequately covered.
- Make sure you have copies of important documents such as insurance papers (wind, flood, homeowners, car and health insurance), house deed, proof of occupancy (such as utility bill, drivers license, passports, etc.). Store in a safe waterproof location.

- A phone list of all your important contacts (family, doctors, insurance agents)
- Take photographs or a video of your home for insurance purposes.
- Establish a plan for where you will go if you need to evacuate, and what you will need to take with you.
- Let family and friends know where you will be.
- Register if you have special need's: <http://www.miamidade.gov/fire/eeap.asp>
- Purchase materials to protect your home now, especially if you don't have shutters. Purchase such items as 5/8" plywood, screws, plastic sheeting and tarps etc.
- Make arrangements for pets in case you must evacuate.
- Purchase supplies for you and your animals for a minimum of 3 days.
- Make sure your pets vaccines and shots are up to date, they have an I.D. Tag and license, micro-chipped and prescription medications. Update pet photo.
- Plan ahead. Trim any trees or shrubs now and haul away the debris. The nearest trash and recycling center to Cutler Bay is located at 9401 SW 184<sup>th</sup> Street. For additional centers visit: <http://www.miamidade.gov/solidwaste/trash-recycling.asp> Do not cut trees or shrubs after a watch has been issued.
- If you have a land-line, have one old fashioned (non cordless) phone in your home that does not require electricity.
- Locate a safe room in your home, and store supplies there making sure they are easily accessible should you need to evacuate.
- Purchase books, toys, cards etc. to keep children entertained

## **Before the storm**

- Bring in all loose items in your yard such as lawn furniture, pool equipment, garbage and recycling cans and potted plants
- Secure your home.
- Mow your lawn just prior to a storm so it will be easy to locate debris such as roofing tabs and nails.
- Remember to fill your tub with water using silicone caulking to keep tub from leaking. Use this water to flush toilets if necessary.
- Turn your refrigerator to it's coldest level
- Freeze water containers  $\frac{3}{4}$  filled to use to keep food cold and for additional drinking water when thawed. Do not use glass containers.
- Purchase or make additional ice
- Fill water containers
- Refill your prescriptions
- Get additional cash before the storm
- Charge all Cell Phones
- Fill your cars gas tank and purchase gas for your generator.
- If you own a boat moored at a marina, use double lines to secure it.
- Protect the electronics with surge protectors and waterproof coverings.

## **If you must evacuate**

- Evacuate inland, going only as far as necessary to ensure your safety.
- Shut off electricity at the main fuse or breaker
- Shut off gas supply at the outside source
- Lock all doors and windows.
- Leave the address and phone number of your destination posted on an interior wall
- Try to leave during the daylight hours
- If you are going to a shelter do not take your pets (unless the shelter accepts pets)
- Take your hurricane suitcase and supplies.

- Take portable bedding such as sleeping bags, pillows and blanket.
- Tell someone where you are going.

For more information about evacuating visit: <http://www.miamidade.gov/hurricane/about-evacuation.asp>

Find out your storm surge zone at: <https://bit.ly/2PgbYne>

## During the Storm

- Stay inside away from windows.
- Do not venture outside during the “eye of the storm”
- Listen to local news for important weather updates, tornado warnings, etc.
- Keep your pet in a pet container for his/her safety
- Use flashlights for lighting. Do not use candles or kerosene lamps as a light source
- Do not use tap water until you get the all clear.
- Avoid taking a bath or use the phone during the storm.

## After the Storm

- Do not go out until all danger has passed. There may be hidden dangers such as downed power lines.
- When you do venture out, be sure to wear shoes to protect your feet from glass and other sharp objects.
- Do not walk through standing water.
- Inspect your home to assure that it is safe to remain in your home.
- Do not drive around after a storm. Roads may be impassable, there may be downed lines and you may interfere with emergency vehicles or service trucks.
- Continue to obey curfew and emergency orders.
- Do not use charcoal grills, propane camping stoves or generators indoors.
- Put debris out for pick up as soon as safely possible. Our Town has arranged for a company to remove as much debris within the first 72 hours after the storm. Debris removed within this time frame will be paid for by FEMA and not Cutler Bay residents.
- Toss any refrigerated food that may have spoiled.
- Keep hurricane debris separate from regular household trash
- Before beginning any clean-up, take pictures of the damage for insurance purposes.
- For information about the Town of Cutler Bay, Emergency Debris Removal visit: <http://cutlerbay-fl.gov/home/showdocument?id=5924>

## Food Safety (if your electricity goes out)

- Water may become contaminated during a storm, before authorities can alert the public. Drink bottled water until you are sure the water supply is safe.
- Keep your refrigerator and freezer doors closed. Set them to their coldest setting prior to the storm. A refrigerator will keep food cold for up to four hours unopened. An unopened freezer will stay cold for 48 hours if full and approximately 24 hours if half full.
- Use bottled water to wash fruits and vegetables.
- Remember the old saying “If in doubt, throw it out”
- For additional information visit [foodsafety.gov](http://foodsafety.gov) or call the FDA at 1-888-SafeFood (1-888-723-3366)

## Generator Safety

- **DO NOT USE GENERATORS INDOORS**, including inside garages, carports, or other enclosed or partially enclosed area. Place generator away from windows, and doors.
- Generators produce carbon monoxide and if not well ventilated can kill. CO can not be seen or smelled. If you begin to feel sick, weak, or dizzy while using a generator go outside immediately. Use a battery-operated CO alarm to warn you of any danger.
- To avoid electrocution from generators, keep the generator in a dry, area with an open canopy placed above, not on top of, the generator. Do not touch a generator with wet hands.
- Plug appliances directly into the generator or use heavy duty, outdoor-rated extension cords. Never plug the generator into the main electrical panel. This is dangerous and potentially fatal to you and electrical service workers trying to restore power.
- Before refueling, turn off your generator and allow it time to cool down.
- Store all fuel in approved containers, stored outside in a shed or other protected area, not inside your home or garage.

## Getting Your Home Repaired

- Do what you can to prevent further damage to your home, if you can do so safely.
- Contact your insurance company as soon as possible and fill out a claim form.
- Take pictures of all damage, prior to any clean-up or rebuilding.
- Get at least three estimates for repairs.
- Get all promises in writing
- Check license and insurance of repair companies.
- Get a permits and inspections for all repairs that require it. Permits and inspections ensure that the repair is done right, and companies looking to take advantage of distraught, vulnerable homeowners will walk away if you insist on permits.
- Do not pay large amounts up front. Do not make final payment until the work has passed all inspections.
- Pay by credit card, if possible, or by check. Never pay in cash. Get Receipts for all repairs.
